About Next Mission

You served your country. Your next mission: learn, grow.

Leverage your military experience for success in civilian life through online courses developed by UCSF clinicians and veterans.

Why Next Mission?

Over two million American veterans of the wars in Iraq and Afghanistan are now home. They return to their families, the work force, and their communities with core values of honor, courage, duty, country, leadership, loyalty and teamwork. Upon leaving the military, our veterans’ next mission is to reflect on their experiences and draw upon their numerous strengths as they reintegrate into civilian life. Next Mission is designed to accelerate this transition and is built on the belief that veterans will enrich and contribute meaningfully in their personal lives, their careers, and as members of society.
